Education

George Mason University

Master of Science in Computer Science

GPA: **3.89/4.00**

Fairfax, VA

Aug 2024 – Dec 2026

Pillai College of Engineering, University of Mumbai

Bachelor of Technology in Computer Engineering

GPA: **9.00/10.00**

Panvel, India

Aug 2020 – May 2024

Professional Experience

Silent Falcon UAS Technologies

AI Software Engineer Intern

Virginia, USA

May 2026 – Present

- Design and develop AI-powered software solutions for aviation and unmanned aerial systems (UAS), integrating machine learning and Large Language Model (LLM) capabilities into enterprise applications.
- Build scalable backend services, REST APIs, and data pipelines to process and analyze real-time aviation and operational data.
- Collaborate with cross-functional engineering teams to develop and deploy AI-enabled airport operations and flight intelligence platforms using modern software engineering and Git/GitHub workflows.

Smollan Pvt. Ltd.

Data Science Intern

Mumbai, India

Jul 2023 – Jul 2024

- Worked on Google's Data Science Project, performing data preprocessing, visualization, analysis, and predictive model development using Python.
- Built automated web scraping and SQL-based data collection pipelines, improving data acquisition efficiency.
- Developed dashboards and analytical reports to support business insights and data-driven decision-making.
- Utilized GitHub and Visual Studio Code for collaborative development and version control.

Acmegrade

Cyber Security Intern

Mumbai, India

Sep 2022 – Dec 2022

- Assisted in network security monitoring, vulnerability assessment, and incident response activities.
- Gained hands-on experience with security tools, scripting, and compliance standards.
- Collaborated with team members to improve security awareness and operational practices.

SmartKnower

Azure Cloud Computing Intern

Mumbai, India

May 2021 – Aug 2021

- Deployed and managed Azure cloud services, including virtual machines and storage solutions.
- Automated cloud resource management using scripting and monitored system performance.
- Applied cloud security and compliance best practices while building scalable cloud-based solutions.

Projects

AI-Powered Event Management Application

React Native, Flask, SQL, LLM, Tableau, Power BI

- Designed and developed an intelligent event planning platform integrating AI chatbots and recommendation systems.
- Built backend APIs and interactive dashboards to streamline event organization and improve user experience.
- Published as part of the *Proceedings of the 5th International Conference on Recent Trends in Machine Learning, IoT, Smart Cities, and Applications (Springer Nature)*.

Movie Recommendation System

Python, Flask, Django

- Developed a machine learning-based movie recommendation engine using collaborative filtering techniques.
- Deployed a web application enabling personalized recommendations based on user preferences.

Publication

Chatbot-Based Event Planning Application Using Artificial Intelligence and Machine Learning

Published in the *Proceedings of the 5th International Conference on Recent Trends in Machine Learning, IoT, Smart Cities, and Applications (Springer Nature)*.

Technical Skills

Programming Languages: Python, Java, SQL, JavaScript, HTML/CSS, PHP, R

Frameworks & Libraries: Flask, React Native, Pandas, NumPy, PyTorch, Scikit-learn, Bootstrap

Tools & Platforms: Git, GitHub, Visual Studio Code, Jupyter Notebook, Tableau, Power BI, Figma, XAMPP, Google Analytics, Microsoft Excel

Cloud & Operating Systems: Microsoft Azure, Windows, Kali Linux

Certifications

- Artificial Intelligence A-Z 2025: Build 7 AI + LLM & ChatGPT
- Google Data Analytics Professional Certificate (Coursera)
- Data Analytics and Visualization Job Simulation – Accenture
- Programming Foundations with JavaScript, HTML, and CSS – Duke University
- Microsoft Azure Cloud Computing
- Python Programming
- Cyber Security Fundamentals
